Subject: Pechiney Cast Plating

Mr. Weintraub,

I hope you have been following the conversation with Ms. Santos and DTSC about the PCBs at this site (listed above). In any case, I was hoping you could join us tomorrow at 3 pm for a conference call ? If so, please send me your number.

Also, is there a chance that last year when you were working with Geomatrix, they provided you with the original PCB concentration in the lubricating oil that was the source of the contamination ? I ask because Ms. Santos is asking for it and the consultant says they don't know the initial concentration. However, I figured that you probably ask the same questions as Ms. Santos, so perhaps they already provided it to you but forgot. ?

Ms. Santos stated that you did not approve the RAP that Geomatrix sent you last year, can you send me a copy of that letter ? Do you have it electronically ? If not, I will just wait for the hard copy in the mail. Please see my mailing address at the end of this email.

I have asked the Geomatrix consultant to send you an electronic copy of the plan again, so we can discuss etc tomorrow, if necessary.

Thanking you in advance. If you have any questions before the meeting, please feel free to contact me directly.

Sincerely,

Christine Bucklin, P.G.
